

TechnoCamp
June 26-July 1, 2022
Camp Grassick

For teens with special needs, there are limited camping opportunities available. Anne Carlsen Center is rooted in the belief that all people, regardless of disability, should have the chance to live life to its fullest.

TechnoCamp supports and enhances the campers' use of communication systems and technology to allow them to participate fully in the camping experience.

The technology focus provides individuals the opportunity to further develop skills with technology adaptations. And mixed in with functional learning activities are camp favorites including hayrides, swimming in the lake, pontoon rides, bonfires, and recreation activities. Technology use will be infused into the scheduled activities, from bingo, to campfire songs, to the talent show.

Acceptance Criteria

- Must be 13-21 years old, with a disability
- Covid-19 vaccination is strongly encouraged and testing may be required
- Must be able to communicate basic wants and needs using verbal speech, a communication device, or basic sign language
- May be ambulatory or use a wheelchair
- Have only mild allergies
- May have only mild behaviors
- Camp is limited to 20 people

Elks Camp Grassick

The setting for TechnoCamp, Elks Camp Grassick is nestled on the sunny south shore of Lake Isabel, five miles south of Dawson, N.D. Lake Isabel is a sand bottom, spring-fed lake with a gently sloping floor and a large shallow area suitable for water games and swimming instruction. The grounds surrounding the lake cover acres of rolling hills, trees, flowers and shrubs. Trained and dedicated Camp Grassick counselors, along with skilled ACC staff, provide assistance to meet campers' needs.

Camp facilities include:

- Craft building
- Recreation hall
- Accessible cabins
- Medical services
- Therapy areas
- Large kitchen and dining hall
- Laundry facilities
